INTRODUCTION

Student's Activity Module for English is aimed at developing knowledge and awareness of Renewable Energy (RE) and Energy Efficiency (EE) for Primary School students. The English activities in this module are designed for Year One to Year Six pupils. The activities focus on English concepts as well as creating awareness of Renewable Energy and Energy Efficiency. The English activities are identified from the associated learning areas of the curriculum for primary schools published by The Curriculum Development Centre, Ministry of Education Malaysia. The Student's Activity Module has to be used together with the Teacher's Guide Module For Primary School English.

CONTENTS

YEAR 1

Hello	3
Making Friends	7
Places In My School	11
How Do I Get There?	16
Today Is	22
Let Us Put It Together	26

YEAR 2

Greetings	32
